EXCLUSIVE OPPORTUNITY TO BECOME NEW STUDY CENTRE FOR ONLINE MODE

ADMISSION MARKET; TODAY & FUTURE

Today Distance Education is increasing at a very large pace. According to the study, in 2009 there were only 10.2% of the total students enrolled in distance education programmes. In the past years as the demand for distance education is increasing it is predicted that in next 5 years this percentage can touch 35% of the total students admitted for education.

As per the 11th plan, the Government of India targets to increase the higher education enrollment from current 8% to 20%. The total enrolment in higher education at the end of 10th plan is estimated to be 1.2 crores out of which the contribution of distance education is 24% to 40% and to achieve this there is a renewed emphasis on distance education throughout the country.

1. ONLINE DISTANCE EDUCATION PROSPECTS IN INDIA

Online Distance Education is an emerging global phenomenon that promises to alter fundamentally the nature of traditional education and training. The increasingly pervasive nature of the Net and the Web, and the collaborative infrastructure provided by net-centric computing have led to the growth of online distance education. The phenomenal growth of Online Distance Education is explained by the fact that over 90% of college students access the Internet, with 50% accessing the Web daily. Also, Indian companies and organizations are spending huge amounts on in-house training and education programs through distance and blended mode. The popularity of Online Distance Education programs has further increased with the availability of on-line discussion forums.

Subject : Recognition of Degrees awarded by Open Universities.

Sir,

There are a number of Open Universities in the country offering various degrees/diploma through the mode of non-formal education. The Open Universities have been established in the country by an Act of Parliament or State Legislature in accordance with the provisions contained in Section 2(f) of University Grants Commission Act, 1956. These universities are, therefore, empowered to award degrees in terms of Section 22(1) of the UGC Act, 1956.

A circular was earlier issued vide UGC letter N.F.1-8/92(CPP) dated February,1992 mentioning that the Certificate, Diplomas and Degrees awarded by Indira Gandhi National Open University are to be treated equivalent to the corresponding awards of the Universities in the country.

Attention is further invited to UGC circular No.F1-25/93(CPP-II) dated 28th July, 1993 for recognition of degrees and diplomas as well as transfer of credit for courses successfully completed by students between the two types of universities so that the mobility of students from Open University stream to traditional Universities is ensured without any difficulty.

The UGC has specified the nomenclature of degrees under Section 22(3) of the UGC Act, 1956 to ensure mandatory requirements viz. minimum essential academic inputs required for awarding such degrees. The details of Gazette Notification regarding specification of degrees are given in UGC website www.ugc.ac.in

P.T.O.

:: 2 ::

May, I therefore request you to treat the Degrees/Diplomas /Certificates awarded by the Open Universities in conformity with the UGC notification on Specification of Degrees as equivalent to the corresponding awards of the traditional Universities in the country.

Yours faithfully,
